The Cumberland County Historical Society is excited to share our new membership! The new membership consists of several levels with unique benefits offered in each tier. If you are interested in the preservation of your community's history then we invite you to become a member of the Cumberland County Historical Society. Your membership helps the Society in fulfilling its mission "to preserve and promote the history and heritage of the county through acquisitions, collections, exhibits and research, educational programs and publications for the benefit of current and future generations."

Your membership is valid for one year and is up for renewal every January. The fees for the membership is tax deductible. Those who join late in the year will receive past copies of The Cumberland Patriot Newsletter of that year. Letters and emails will go out notifying you when your membership needs to be renewed.
